

DESCRIPTION

The new plastic cable fixer is very convenient for all types of cable stratified grouping, shared cable load pressure, suitable for all grid bridge and other types of cable tray finishing, make sure the cable is clean and beautiful after installation.

Technical Characteristics

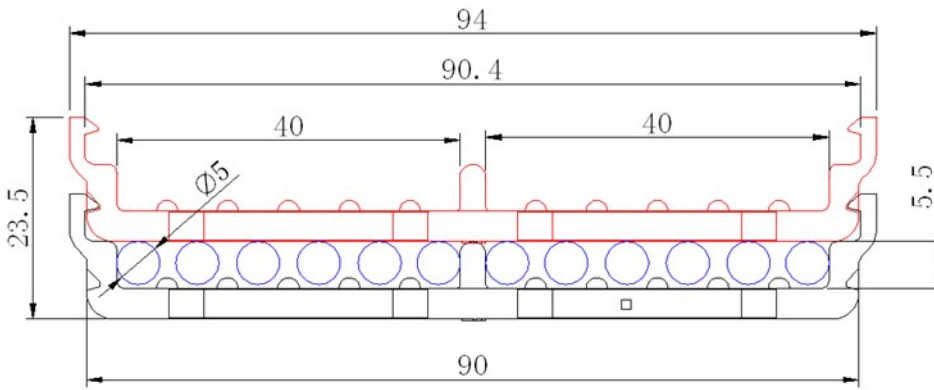

- All the cables are rectangular on the cable rack, which solves the problems of uneven force on the cables and easy damage to the lower cables caused by the traditional cable mounting and fixing methods (cable ties, wax wires, tapes, etc.) .
- Provide guarantee for high-speed transmission, make sure the best use effect of cable, good heat dissipation to eliminate fire hazards. Flexible, effective and safe management for all kinds of cables, make the cable system neat and beautiful. Simple design, convenient for the on-site construction.
- Easy to install, convenient for dismantle, exchange and adjust.
