

# Cat6 48 port RJ45 High Density Pre-terminated Patch Panel

Product No: LPA148-C6U Ver. 06/20

Product Specification.

## **DESCRIPTION**

This product adopts high density module design, fulfill or surpass CAT6A transmission standard in operation, with accordance to Gigabit Ethernet system, providing up to 550MHz available bandwidth, suitable for horizontal cabling, network equipment and consolidation point.

## **APPLICATION**

- Pre-terminated: Pre-install CAT6 modules group on 1U patch panel, in order to save labor force and improve efficiency onsite.
- High density: 1U patch panel can load 8pcs modules, each with 6pcs connectors, totally 48pcsconnectors.
- Front and rear two-way removable: The modules can be disassembled front or rear, convenient for installation and maintenance.
- Dust prevention and protection: Dustproof and humanized design, ensure no dust entry and damage during installation.
- Phosphor bronze IDC clip ensures over 250 terminations.
- With product code on the front brow, so it is easy for clients to recognize.

Contact material of pin point is 50μ` gold plate, with durability of 1500 matches.
